ELECTION OF SENATOR. On the first vote yesterday-the 49th vote in

all—the Hop. John Bell, was elected Secator for six years from the 4th of March last. He received 51 votes, to 47 for all others. Mr. Nguson received 18; Mr. Cave Johnson, 24; Mr. N. S. Brown, 4: and Mr. A. V. Brows, 1. Mr. Bear received the votes of Messrs, Benton

Cook, Davis, Frazer, Hall, Jones, Perkins, Reid, Robertson, and Rogers, of the Senate, and Messrs. Arnold, Bailey, Brown of McNairy, Chambliss, Cheatham, Clements, Clemons, Cooper, Dortch, Easterley, Erwin, Farrington, Greer, Hall, Hart, Hawkins, Herd, Holmes, House, Lucas, Mabry of Warren, Martin, Maxwell, McKnight, Morris of Wayne, Nuon, Overall, Patton, Phillips, Richardson, Smith of Davidson, Smith of Haywood, Steele, Stewart, Stovall, Tharpe, Thompson, Tibbs, Wheeler, Winchester, and Wynn, of the House-51.

Mr. Jourson received the votes of Messrs. Bowles. Dunlap of Henry, Farquherson, Havron, Moore, Nixon, Northcutt, Reagan, and Mr. Spenker Polk, of the Senate; and Messrs, Buford, Cavitt, Chowning, Cummings, Lamb, Lane, Lillard, Mathis, Pope, Sykes, Travis, Williams, Wood of Cannon, Wood of Hardeman, and Wood of Fentress, of the House

M . Nerson received the votes of Messrs. Bell, Bowley, Carriger, Nave, and Nelson, of the Senate; and Messes, Broyles, Bullen, Chamberlain, Cowart, Ellis, Harris, Hubbard, Hyder, Mabry of Knox, Odell, Temple, Wallace, and White, of the House

Mr. N. S. Erown received the votes of Mesers. Brown of Mouroe, Carroll, Cooke, and Morris of Cocke-of the House-4. Mr. A. V. BROWN received the vote of Mr.

Hebb, of the House -1. The democratic vote was cast as follows: For Mr. Johnson, 24; for Mr. Bell, 10; for Mr.

Nelson, 7; for Mr. A. V. Brown, 1. Mr. Bert, therefore, owes his election to democrats. Without such votes, he could not have been elected. Whether they acted right or wrong, is not for us to determine. We may, however, remark, that their course is in striking contrast with

that of the whig party on a memorable occasion. We have at no time seriously doubted the election of Mr. Band. We have never supposed it possible for the democratic vote to be united against him for another whig, or desired that it should be. We had hardly, however, been prepared for a degree of magnanimity in our friends which should induce them to step forward and settle for their opponents a family quarrel which they were unable to settle

STOP THAT, GENTLEMEN! We understand that a bill has been introduced

for the election of a Warden to the Penitentiary by the Legislature! The Warden is at present elected by the commissioners, who receive their appoint-A little patronage should be left to the Governor, if for no other reason, at least for the credit and dignity of the office. But we do not base our objecas this. We are satisfied that the interests of the institution, and of the public, are best promoted by the present made of election. The commissioners appointed by the Governor are always selected from the community in which the Penitentiary is located, and are consequently well qualified, by their personal knowledge of applicants, to select a suitable person for managing the institution. The members of the Legislature, for the most part, can know very little personally about the qualifications of candidates for this responsible office, and the prebabilities are that three times out of five, a bad selection would be made. We object to the proposed change on this ground; and we also object to it up-Such change would be "flying in the face" of the recent sovereign act of the poople taking away from the Legislature the election of important officers under the State Government. Why have the they disliked the manner in which previous Legis latures executed this power. Experience has proved that, nine times out of ten, elections by the General Assembly are fraught with difficulties. It or Senate costs the public treasury more than the selection of the chief Executive of the State. We have just witnessed a striking commentary upon the propriety of extending the present jurisdiction of the Legislature in the election of public officers. Eight or ten days have been spent in the delay it has occasioned to other and important pubing the Wa den of the Penitentiary. The people

We don't like this. We wanted Vermont to re- South Carolina, for the respondents. The amount main as she was, and be the seed of another whig involved is large. If the respondents should be party. But it appears as if even she is getting sick and deluded gentlemen who have insisted that the | in all probability, be distributed among the benevowhig party is still alive and kicking? Do they want more proof?

MURDER AT RICHMOND, MO., AND SUMMARY EXE-Wixgo was summarily executed by the populace of Philadelphia are already much indebted to the phil Richmond, on the 15th inst., for the murder of a stillhopic munificence of the generous testator.-

Wixgo was lodged in jail, where he remained till the 15th, when he was brought out for trial. The court, in consequence of the universal prejudice against the culprit, granted a change of venue; but the populace, anticipating the event, and pre- quence of which must result in great evil to the determined that he should not escape, assembled public health, if permitted. We could not gather in mass in front of the court-house, and as soon as sufficient evidence to fix guilt upon the parties. the prisoner, in custody of the sheriff, made his egress, a rope was thrown about his neck, and in in the premises, and would suggest the propriety of spite of the remonstrance and efforts of the officers, their making a strict menity in regard to a practice he was hastily dragged off with such violence as | so cruel, and which is likely to produce ecrious connearly deprived him of life ere reaching the place sequences. We allude to the practice of a portion of execution, when the rope was thrown over the branch of a tree and the prisoner swung up by the

THE WASHINGTON GLOBE,-We have received from Jons C. Rives, Esq.; his prospectus for "The Globe, the official paper of Congress, and Newspaper for the People" -in other words the "Daily Globe" and the "Congressional Globe," separately. Mr. Rives proposes a pretty smart enterp i.e. but as he will be remembered as the efficient parmer of F. P. BLAIR, in the "organ" of the Jackson era, he is probably the man to carry it out. Having succeeded in his purpose of perfecting the reports of the debates in Congress, and giving them the official stamp, he now proposes to send them abroad. in connection with the news of the day, in such haste as shall outstrip full and accurate intelligence sent from the sest of Government in any other form whatever. Indeed, Mr R. "hopes to create a new era in the dissemination of news from Washington." The process by which this will be effected he lave before the public as follows:

"I will have a corps of sixteen Reporters in Congress; each in succession will take notes during five minutes, then retire, prepare them for the Presput them slip by slip in the hands of compositors, and thus, while the debate is going on in Congress, it will be put up in type, and in a few minutes after it is ended it will be in print. Thus the accurate debates of Congress will reach the cities two hundred and fifty miles from the Capitol before their

daily morning papers are in circulation.
"The miscellaneous news I shall be careful to gather from remote sections of the country by telegraph. I will obtain from the Executive Departments, through official sources, the matters of moment transacted in them, and, through agents employed for the purpose, all the city news of consequence in sufficient time to be put into the Globe and mailed in the Express Mail trains."

The Congressional Globe and its Appendix are printed in quarto form, at \$6 per year, and, by a special law of Congress, are carried in the mail throughout the Union free of cost. The Daily Globe will be issued at \$5 a year. It will be as large as the Intelligencer or Union,

MONEY AND FAILURES IN NEW YORK. The Northern press are grossly in error in intimuting that most of the stocks being redeemed at the Treasury Department are held abroad. The Washington Ster learns at the Treasury that no more than a fourth, or at most a third of these securities so far redeemed, were the property of others than citizens of the United States

The rumor respecting the failure of George Law, the great steamship man, was utterly baseless. The papers there report the certain failure of Messra WISSTON, SRAMAN & Co., dry goods jobbers, and that of C. R. DIAMOND & Co., sugar refiners of Bristol, R. I. We also notice the suspension of Messes, Perkins, Brooks, & Co., dry goods jobbers in New York. The liabilities of Diamond & Co. are said to be about half a million. This suspension has much surprised the trade, as the refigers have been making money this year. They had made recent purchases in Now York, and their total liabilities there will probably amount to about

The Pittsburg Commercial Journal has the following in regard to very grave charges preferred

against several officials of Allegheny City; Rumors have been in circulation for some time past, seriously affecting the reputation of Mayor Park, of Allegheny City, and Hugh Gallagher, Samuel Long, Robert Hastings and John Piles his officers. They were accused by a man named Jacob Park, of compounding felonies, receiving money for so doing, and either opening the cells into the House of Representatives which provides for the escape of criminals, or so arranging matters as to let them out.

We have not alluded to the subject heretofore. because we think so grave a charge, against per ed by the commissioners, who receive their appointment from the Governor, and we are satisfied that be made public, until the evidence has been at least if the wishes and interest of the people are consult- brought before a Grand Jury. This has been done, ed the power to elect will still remain where it is and a true bill was yesterday returned against Robe. W. Park, Mayor; High Constable, Hugh Gallagher; and constables Long and Hastings, and ignored as regarded John Pi'es. The matter will soon receive a judicial examination. We may add, however, tion to the proposed change upon any such ground | that we trust the defendants, officers of justice as they are, to whom have been entrusted the safety of their fellow citizens, are not guilty of so dis graceful a crime as that imputed to them, and we will not believe they are, until they have been proven to be so.

EXTRAORDINARY CASE OF LETHARDY.-The Alsacien relates the following singular case of lethargy On the evening of the 30th ult., a young man the son of a widow at Illneensern, who had been ill for some time, died. His mother, who is a poor woman, went to some of her neighbors to procure shirit to prepare the body for interment. The mother and a neighbor then set about the melancholy operation, but met with an impedent which somewhat retarded them. The deceased had a deformed foot, which they thought would prevent the body from going into the coffin. In order to remove this obstacle, they resolved on breaking the bone, which was done, and the body was laid out as straight as though it had never been deformed The body was then carried into another room and covered with a sheet. About 11 o'clock at night. the woman, who was to watch the body, entered the room to trim the lamp, and remarked that the sheet over the body had been moved. She called the mother, and on examination it was found that the leg had resumed its detormed position. In about a quarter of an hour the young man was seen to breathe, and soon after he speke, complained is almost impossible to select the most unimportant of hunger and thirst, and demanded a glass of wine officer, without great contention, delay, and ex- | and something to eat. He then related to the perpense. The selection of door-keeper to the House | sons near him that he had been a long journey, and that he had spoken to his father and some friends in another world. Dr. M'Lane's Liver Pills.-The great increasing demand for these Pills is the surest evidence of their excel lence. People try them, and then recommend them to their neighbors. No one who has ever suffered from the Liver complaint, or from any of the diseases arising from a disordered state of that organ, has yet failed in oh aining relief if he tried Dr. M'Lane's Pills; and thus they have worked their own way into popularity by the astonishing cures which they are every day performing. Dr. Morse's Invigorating Elixir Cordial-Among all herbs applied in medical practice, that which forms the main ingredient in this preparation stands supreme. It is Nature's catholocon. Had the travels of Dr. Morse, which has added so much to Science in its various branches, resulted in the discovery of this herb alone, he would still have been the greatest benefactor of the age -Mineral remedies are utterly superseded by this purely regetable specific. And you weak, dyspeptie, nervous, subect to sudden flushes, convulsed with neuralgia or tic deloreur, irregular in any physical function, enervated in any organ; subject to spasmodic pains of any kind! Here is your remedy. Is your mind, your memory clouded; does your head fail you in business, are you depressed in spirits, debilitated, worn out, and utterly "out of heart?" Here is your renovator. Here is a stimulant more effective than alcohol; permanent in its effects, and harmless to the system as filtered water. Think of these things, you that are sick and suffering, and test our words by experiment, The Cordial is put up, highly concentrated, in pint bot tles. Price three dollars per bottle, two for five dollars, six for twelve dollars. C. H. BING, Proprietor,
